SKILLS

- Penetration Testing
- Vulnerability Assessment
- SIEM-Assisted Log Analysis (Elastic/ELK)
- Network Traffic Analysis (Wireshark, Nmap)
- Network Security
- Windows & Linux Privilege Escalation
- Web Application Security
- Information Security
- Linux
- TypeScript / React
- Node.js
- MySQL

SUMMARY

Second-year Faculty of Automatic Control and Computer Science student at UPB with hands-on development experience in TypeScript, React, and Node.js, and a growing focus on cybersecurity. Earned the HTB Certified Junior Cybersecurity Associate (CJCA) certification, demonstrating practical skills in penetration testing and SIEM-assisted log analysis (Elastic). I bring a developer's perspective to security work — reasoning about vulnerabilities at the code level.

EXPERIENCE

- Full-Stack Developer** 10/2025 - 06/2026
LSAC Bucharest - Bucharest, Romania
- Contributed across the stack on the department's internal meeting-scheduling platform (Node.js, Prisma, React), owning features end to end.

EDUCATION

- Bachelor's degree:** Faculty of Automatic Control and Computer Science, 10/2025 - Current
University POLITEHNICA of Bucharest - Bucharest
- Completed my first year with a 9.42/10 GPA, earning a merit-based monthly stipend from the university for the result. Currently in my second year.

CERTIFICATIONS

- HTB Certified Junior Cybersecurity Associate (CJCA) — Hack The Box, September 2026 (Credential ID: HTBCERT-77C3CFF375)
- Cambridge Certificate in Advanced English (CAE) — Cambridge University Press & Assessment, May 2024 (Credential ID: C6296037)

ACCOMPLISHMENTS

- Ranked among the top students in first-year Automatic Control and Computer Science at University Politehnica of Bucharest with a 9.42/10 GPA
